## Hanex Solid Surfaces Announces the Addition of 12 New Colors as Part of Bellissimo Episode II Collection

*New trend-setting Solid Surface colors and designs unveiled for 2015*

**ATLANTA, GA January 20, 2015** -- [Hanwha Surfaces](#), is pleased to announce the Bellissimo Episode II Collection by [Hanex Solid Surfaces](#), the company's solid surfaces division. The Collection's 12 new colors fuse versatility with beauty, inspired by diverse conversations with designers to create innovative commercial acrylic surfacing. The styles include shades and hues embodying the intricate movements and structures found in nature.

"There's a remarkable story behind why designers are choosing Hanex," said Dan Boyd VP of Strategy for Hanwha Surfaces. "Designers and architects are transforming where their clients live and work. That's why the solid surfaces of our Bellissimo Ep. II Collection - down to the tiniest details - are engineered to inspire them."

The new collection consists of twelve fresh colors:

The **Macassar** (BL-209), **Ulmus** (BL-208), and **Bordeaux** (BL-207) capture the luxuriously warm, rich browns found in the forests and woods of the Northeast United States. **Silkwood** (BL-203), **Seaway** (BL-204), **Kashmere** (BL-201), and **Flaxen** (BL-202) offer the sophisticated neutrals and movement found in the sandy dunes of beaches and deserts. **Mica** (BL-252), **Sedimentary** (BL-205), and **Slate Grey** (BL-209) provide depth and distinction inspired by rocks and stones. **Lime Twist** (BL-211) offers a bold and tangy, citrus green palette. And finally, **Blue Wave** (BL-210), which is reflective of luscious oceans and wondrous blue skies. Both Lime Twist and Blue Wave designs are translucent surfaces.

Hanex Solid Surfaces continues to create and deliver some of the most durable, affordable materials on the market - which are as versatile as they are gorgeous. The surfaces are stain-resistant and nonporous, making them the ideal material for commercial applications. To view Hanex's newly launched designs and the entire spectrum of colors visit [www.hanexsurfaces.com](http://www.hanexsurfaces.com).
